I plan to go to Central Michigan University: to major in exercise science to go into physical therapy.

My favorite memory at SCA was during this school year. This year was my fourth time going to the Mission Retreat and I was a group leader. As a group leader, you spend a lot of time with your small group, which typically are not people in your grade. So my friends decided on Saturday night after we finished talking with our small groups after adoration that we would talk to each other about what we experienced and how it was different for us this year than in the past. My friends and I stayed up for hours just talking about the retreat and whatever else we wanted to talk about; we really created a special bond that night that will never leave us.

The friendships and memories that I have made while at school.

Parish:
St. Fabian

Middle School:
St. Fabian

What I will miss most:

Extra-curricular activities included:
SCA Times and NHS

After Graduation plans:
I plan to go to Central Michigan University: to major in exercise science to go into physical therapy.
